THE IMPORTANCE OF BECOMING A MEMBER OF CCA

The Minute Book - The Association's quarterly magazine, full of useful information, including court-related articles of interest and announcements of upcoming training days. Members are strongly encouraged to participate in the production of this publication by submitting articles and other items of interest.

Courts Directory, Procedure Manuals - Published regularly through the joint efforts of Association members who contribute their time and expertise. These publications are widely sold to the courts, members of the legal profession, law enforcement and other court-related organizations. The profits derived from these sales are used to support the educational functions and committee work of the Association.

Training Workshops and Annual Convention - Regular training workshops designed to provide education and training at very affordable cost are conducted annually at various locations in the state. These workshops are intended to provide members with valuable instruction on generic and court specific subjects which will enhance personal and professional growth. These events provide a valuable means for the exchange of ideas, discussion of new or pending legislation, and the cultivation and enjoyment of fellowship and networking with other Association members.

Legislative Advocacy - As an employee in the vast Judicial Branch of California, membership in this professional organization gives you the standing and influence to oppose undesirable legislation and to support (and even propose) desirable legislation pertaining to the courts. As a vital part of the judicial system, you are able to play an active role in the development and outcome of your future with the courts.
